GCSD Student/Parent Device Use Agreement

Terms and Conditions of the Computing Device Agreement:

Georgetown County School District is offering all students in grades K-12 access to devices. All students using a District device are expected to abide by our District policies. The use of these resources is a privilege that we provide our students.

Georgetown County School District offers the use of District devices at no cost to students with the expectation that the device will be maintained and handled responsibly. The handling and maintenance of these devices should preserve the device and prolong the longevity of its use.

All District devices are insured under warranty. This coverage includes the cost of repairs or replacement of the device, except costs resulting from misuse, neglect, loss, or theft. Any damages, loss, or theft will be assessed on an individual basis. Georgetown County School District reserves the right to charge families for expenses not covered under the warranty, up to and including a complete replacement of the device.

All students are provided the option of borrowing a District-owned device during virtual, remote, or designated eLearning days. Students opting to borrow a device are responsible for returning the device, without damages, to school immediately following each of these learning experiences. All damages, loss, or theft must be reported to the school as soon as they occur in order to be reviewed and assessed by the District representative. If a device isn't returned within 2 school days, the cost of a replacement device may be charged to the student's PowerSchool account. Additionally, any charges incurred for loss/theft or damage will be recorded in the student's PowerSchool account and will remain there until the charge/fee has been collected. All warranty coverage and device repair and replacement costs are outlined on page 2 of this document.
